**PLANTS BREAK SCRAP LAW -- Leningradskaya Pravda, 21 Dec 50**

According to a 4 August decree of the Leningrad City Executive Committee, the Administration of Enterprises of Communal Services has been ordered to establish control over deliveries of rubbish to dumps in order to ensure that no metal scrap is included in this rubbish. Until now, however, this decision has not been carried out, and the "Glavvtormet" Office is still obliged to collect scrap which has been delivered to dumps with rubbish.

In the last 3 months, more than 20 tons of scrap have been recovered at the dump in Moskovskiy Rayon alone. Certain enterprise directors are still not impressed with the importance of this matter. A large quantity of scrap has been lying around the LARZ Plant No 2 for a number of years. The plant has been paying fines for it, but the director has done nothing to ship out this valuable raw material. -- A. Pulov, deputy director, Leningrad Office of "Glavvtormet."
